[date: undated, after 22 April 1986]

My very dear Peter Johans-

Many thanks for the two letters you so kindly sent me – I ask you to excuse
this long delay in reply to the great geste [English: gesture] and
opportunity you offer me to work together with you all at the very
sympathetic work-place I visited when I was last in Copehagen –

I have for a long time been taken up with much practical work after what
has happened in our family here – rearranging the atelier filling up
administrative papers etc.

Now things have calmed down a bit and would be glad if you could receive
me on the 16th June as you suggest – I should be travelling with my son –

I come entirely open-minded and ready to learn. My first preoccupation
will be concentrated on understanding and handling the technique of
lithography – I shall be full of gratitude to be allowed to partake some of
your experience in this important art –

Now do give my greetings to the companions at the atelier and also to
your family

Very truly yours [unsigned]

[post script:] I am also sending a letter to Steingrim Laursen – Do greet
him from us here -
